

In order to keep our team and patients safe during the COVID-19 pandemic, we have implemented some new policies and procedures:

- Our waiting room is closed. We ask that only the patient come up to the office and all other family wait in the car. At most, one parent or guardian will be allowed to accompany a younger patient.
- If you arrive within 5-10 minutes of your appointment time, you may come in *without* calling the office; if you arrive any earlier please call us before entering.
- Everyone entering our office must wear a mask.
- Upon entering, you will be asked to sanitize your hands and then your temperature will be taken with a touchless infrared thermometer.
- Our brushing station is closed. Please brush at home prior to your appointment.
- We can give updates to parents by text or by speakerphone with a child's cell phone, if something needs to be discussed.
- Our schedule is specifically designed for social distancing and to minimize aerosol cross-contamination. We appreciate your flexibility and understanding when scheduling your next appointment.
